SUMMARY

Experienced React Native Developer with expertise in building scalable, high-performance cross-platform apps for iOS and Android. Skilled in modern frameworks, debugging, and optimizing code to deliver innovative, user-focused solutions.

PROFESSIONAL EXPERIENCE

NetScape Labs Infotech Pvt LTD | Sept 2024 – Present

Wagerflo | Live

- **Led the frontend team** in building a cross-platform mobile app using **React Native & Redux**, delivering a **neon-styled UI** with **Stripe** and **in-app purchases**, **deep linking**, and **third-party APIs** for real-time **live match scores**.
- Designed and implemented **lesson and quiz modules** to teach betting terms, integrated **Firestore push notifications** for announcements, and optimized app performance for a smooth, engaging user experience.
- Collaborated with cross-functional teams to ensure **scalable**, **maintainable**, and **high-performing delivery**, leveraging modern tools and libraries to accelerate development and ensure quality.

Mkanaplug (User & Partner) | Live

- **Developed and launched two React Native apps** – a **business onboarding app** and a **user app** for service booking, ensuring smooth interaction between providers and customers.
- Implemented **Redux for state management**, **Google Maps & Places API for location-based services**, **push notifications** for real-time updates, and integrated **Africa-based Open API** payment gateway for secure transactions.
- Optimized performance and collaborated with backend teams to deliver a **scalable**, **user-friendly** service marketplace experience.

WeSwingNow | Live

- **Built and enhanced a cross-platform dating application** (mobile + web) using **React Native**, and **Redux**, featuring **social logins**, dark theme UI, and **location-based** features with **Google Maps** integration and filters.
- Implemented **real-time chat with Socket.IO**, **push notifications** for matches/messages, and scheduling features with **Google Maps** for meetups, improving user engagement and retention.
- Converted the mobile app into a **responsive web app**, ensuring seamless user experience across platforms and devices.

Krenai | Nov 2023 – Aug 2024

Earth5r | Live

- Implemented the **Google Maps Geolocation api**, for live user path tracking for their challenges. Like – A challenge for 1km cycling.
- Utilized React Native to facilitate cross-platform compatibility, allowing seamless access for **the live path tracking** for both **iOS and Android** users with background tracking path tracking when the app is in **background**.

1PYQ | Live

- Developed a **real-time doubt discussion forum** using **Firestore Realtime Database**, with integrated **ChatGPT API** for instant solutions by tagging AI solvers.
- Implemented **real-time updates and notifications** for new books, discussion activity, and important announcements to boost user engagement.
- Built a **comprehensive mock test feature** with seamless attempt and review functionality, and integrated a **custom ChatGPT Assistant API** for direct AI-powered doubt solving.

EDUCATION

Master of Computer Applications (Sept 2023)

WCTM Farraukh Nagar, Gurgaon (70.125 %), MDU University

Bachelor of Computer Application (Oct 2021)

St. Hopkins College, Bangalore (79.51 %), Bangalore City University

SKILLS

React native, Redux Toolkit, Firebase, Rest API, JavaScript, Typescript, CSS, React, Linux, Web/App Design, third party API integration, Google Maps, Socket IO, Payment Gateway
